**GOLF TOURNAMENT CONTRIBUTES TO BREAST CANCER
BREAKTHROUGHS IN RESEARCH AND EDUCATION**

Fight from the Fairway Tournament to be held on Saturday, May 22, 2010

Wynnewood, PA, May 10, 2010 - - - - In 2009, an estimated 40,000 women died from breast cancer. To ensure this number continues to decrease, educating women about the disease and conducting research that will lead to new diagnostic tools and treatments for cancer is key. The ninth annual *Fight from the Fairway* golf tournament will help raise the funds to make that possible.

Scheduled for Saturday, May 22, 2010, at Honeybrook Golf Club in Honeybrook, PA, this fundraiser donates all proceeds to support breast cancer research at the Lankenau Institute for Medical Research (LIMR) and educational programming at Breastcancer.org. Employees from West Chester-based environmental firm Weston Solutions, Inc. (WESTON®) conceived of the event in 2002, when Karen Schneider, an employee of the company, was first diagnosed with breast cancer. While she unfortunately lost her battle in 2008, the event continues in her memory, raising more than \$200,000 for this worthwhile cause.

“This type of seed funding greatly helped LIMR to advance our breast cancer research projects,” stated George Prendergast, Ph.D, Professor, President, & CEO of LIMR. “One example is the development of a new prognostic marker that our work suggests can identify patients whose small and node negative breast cancer needs to be treated more aggressively than would be otherwise indicated. This work would not have been possible without Fight from the Fairway support.”

“We couldn’t be happier that Karen chose the beneficiaries that she did back in 2002,” stated the tournament committee. “Each year we receive updates from both organizations as to how the tournament proceeds have been used. We are continually energized by strides being made in breast cancer research and education. Participating in Fight from the Fairway is a way to truly make a difference, either in Karen’s memory, or for the Karen in your life.”

Patrick G. McCann, WESTON President and CEO, is proud of the employee effort. He stated, “I am truly honored to be associated with our employees that exhibit our company’s core value of making a difference, not just for this event, but every day. Karen’s legacy will live on in our commitment to finding a cure.”

We’re honored to be a recipient of the Fight from the Fairway tournament again this year. Karen Schneider and her family are very special to Breastcancer.org” says Hope Wohl, CEO of Breastcancer.org. “Continued funding from committed supporters like Fight from the Fairway has allowed Breastcancer.org to remain the premier online resource for reliable, comprehensive information on breast health and breast cancer.”

BREAST CANCER BREAKTHROUGHS THANKS TO GOLF TOURNAMENT PAGE 2

“It’s vitally important that our information is current, that we’re covering the latest research news, and that we provide new programs that meet the needs of our audience. So, when important news happens like the US Preventative Task Force’s Screening Recommendations for mammography (November 2009), Breastcancer.org was able to mobilize a response that answered people’s questions, highlighted the facts and implications, and provided an outlet for people to voice their opinions and discuss their concerns. Breastcancer.org is only able to offer this kind of support because of the generous contributions from supporters like Fight from the Fairway.”

Fran Dunphy, head basketball coach from the Temple Owls and a local leader in the Coaches vs. Cancer campaign, will be on hand as Master of Ceremonies. Other key sponsors include Brandenburg Industrial Service, Drinker, Biddle & Reath LLP, Wharton Surety, Feeding Frenzy and PDS.

The tournament has an 8:00 a.m. shotgun start. The cost for an individual golfer is \$135 or \$500 for a foursome. The day includes golf with cart, range balls, prizes and a barbeque lunch following the round. Additionally, anyone can purchase raffle tickets for a chance to win a five-day trip to Walt Disney World. To register as an individual or as a foursome, become a sponsor, purchase raffle tickets, or learn more, visit the event Web site at www.FightFromTheFairway.org.

About Weston Solutions

Weston Solutions, Inc. (WESTON®) is a global leader in environmental, sustainable, and energy solutions, property redevelopment, and design/build construction. Dedicated to making a difference in the world, the company’s 1,800 people reach out from 60 offices to build strong stakeholder relationships and produce solutions that work. WESTON has been responding to their clients’ toughest problems for more than 50 years. For more information about WESTON, visit their Web site at www.westonsolutions.com.

About Lankenau Institute for Medical Research

Founded in 1927, the Lankenau Institute for Medical Research (LIMR) is an independent, nonprofit biomedical research center located in suburban Philadelphia on the campus of the Lankenau Hospital. Part of Main Line Health, LIMR is one of the few freestanding, hospital-associated medical research centers in the nation. The faculty and staff at the Institute are dedicated to advancing an understanding of the causes of cancer, heart disease and diabetes. They use this information to help improve diagnosis and treatment of these diseases as well as find ways to prevent them. They are also committed to extending the boundaries of human health and well-being through technology transfer and the training of the next generation of scientists and physicians. For more information, please visit www.limr.org.

About Breastcancer.org

Breastcancer.org is a nonprofit organization dedicated to providing the most reliable, complete, and up-to-date information about breast health and breast cancer. Our mission is to help women and their loved ones make sense of the complex medical and personal information about breast cancer, informing and empowering them to make the best decisions for their lives. Breastcancer.org was founded nine years ago by Dr. Marisa Weiss, a breast radiation oncologist for over 20 years and one of our area’s “Top Doctors.” Since its inception, Breastcancer.org has become the world’s #1 online source for medical information on breast health and breast cancer. As Internet use grows across income, ethnic, and age groups, Breastcancer.org resources continue to become increasingly critical for all women concerned about their breast health or breast cancer. For more information visit www.Breastcancer.org.
