

WESTON SOLUTIONS, INC. RETIREMENT SAVINGS PLAN
Plan Number 090667
2020 Plan Year

Regulations require that Plan sponsors provide retirement plan participants with notices regarding your Plan features. This notice describes your rights and responsibilities in connection with these features. No action is required by you at this time, unless you would like to make changes to your elections in the Plan.

It takes just a few minutes to sign up for e-delivery: If you haven't already signed up to receive notices, statements, and transaction confirmations electronically, you can do so by logging on to your Vanguard® retirement plan account at vanguard.com. Click **My profile**, select **Mailing preferences**, and follow the prompts.

This notice covers the following point(s):

- How you can direct or change your investments in the Plan.

Direct your paycheck deduction

At all times you have the right to elect how much to contribute to your Plan.

If you fail to choose to participate in the Plan (or fail to opt out of participation), you may be automatically enrolled with an initial contribution rate of 3%. Each year after the first year of participation, this contribution rate is increased by 1% until you reach the Plan's designated automatic savings limit. This automatic contribution rate increase generally occurs as soon as possible after the first day of January each year.

Please note that if your payroll deferrals to the Plan have been suspended, special rules may apply to your automatic contribution rate increase. Contact Vanguard, using the instructions below, for further information.

How to opt out or make changes

You have the right not to contribute to the Plan. In addition, you always have the right to contribute an amount different than the automatic contribution amount, or to invest in funds other than your Plan's default investment. If you want to make changes, simply contact Vanguard using the instructions below.

Direct your investments

You may direct the investment of your contributions to one or more of the Plan's available funds, which include a broad range of investment alternatives, intended to allow you to achieve a diversified portfolio. All investing is subject to risk. Diversification does not ensure a profit or protect against a loss in a declining market.

Your Plan's default investment¹

Your Plan also designates a Qualified Default Investment Alternative (QDIA) as a default investment where your contributions will be invested if you have not made an alternative investment election. Your default investment is the investment listed below closest to the year you will turn age 65.

Default Investment Fees and Expenses

Certain fees and expenses may be incurred as a result of your investment in the default investment. Those fees and expenses are included in the following list.

Fee/Expense Definitions

- *Gross expense ratio* – The gross expense ratio is the fund's annual operating expenses as a percentage of average net assets. The gross expense ratio does not reflect any fee waivers or reimbursements that may be in effect.
- *Net expense ratio* – The net expense ratio reflects the expenses currently being charged by the fund after taking into account any applicable waivers or reimbursements, without which performance would have been less.
- *Management fee* – The cost of the day-to-day operation and management of the fund.
- *12b-1 fee* – The 12b-1 fee covers the cost of distributing fund shares to investors, including advertising and sales costs.
- *Redemption fee* – The redemption fee is an amount charged when money is withdrawn from the fund. The amount of a redemption fee is generally relative to the amount of time that the investment was held, so that longer-held investments incur smaller rates of charge.
- *Transaction fee* – The costs incurred when buying or selling securities. These include brokers' commissions and spreads (the difference between the price the dealer paid for a security and the price at which it can be sold).
- *Deferred sales charge* – imposed when investors redeem shares. The percentage charged generally declines the longer shares are held, and it is usually applied to the lower of the beginning price or ending price.
- *Sales charge* – A one-time deduction from an investment made into the fund. The amount is generally relative to the amount of the investment, so that larger investments incur smaller rates of charge.

Default Investment Performance

The table below provides important information about your default investment options (as of September 30, 2019)

The performance data shown represents past performance, which is not a guarantee of future results. Investment returns and principal value will fluctuate, so investors' shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data cited.

| Balanced | Average Annual Return | | | | Fund inception date |
|---|-----------------------|--------|---------|-------------------------|---------------------|
| | 1 year | 5 year | 10 year | Since fund's inception* | |
| Vanguard Target Retirement 2015 Fund (Inv) | 6.08% | 5.33% | 7.26% | | 10/27/2003 |
| Benchmark: Target Retirement 2015 Composite Index | 6.17% | 5.51% | 7.40% | | |

Objective: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation.

Strategy: The fund invests in other Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2015 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

Risk: Investments in target-date funds are subject to the risks of their underlying funds. The year in the fund name refers to the approximate year when an investor would retire and leave the work force. Target-date funds gradually shift emphasis from more aggressive investments to more conservative investments based on the target date. Investments in target-date funds are not guaranteed at any time.

Change your investments

You can redirect your future contributions and change the way your Plan account balance is invested anytime, subject to each fund's trading restrictions and any purchase fees (if applicable). If you make an exchange out of the default investment, you cannot put money back into the same fund online or by phone within 30 days; however, you may be able to make an exchange via U.S. mail. Please refer to the fund's prospectus or contact Vanguard for more information.

For further information: Please refer to your Summary Plan Description (SPD) for more information on your Plan's default investment options in addition to a complete explanation of the Plan features. This notice is not a substitute for the SPD. The provisions of the Plan are very complex and you should always look at the SPD if you have any questions about the Plan. You can also contact Vanguard to discuss Plan related questions.

Early withdrawal without penalty

If you are automatically enrolled in the Plan, you can elect to withdraw all payroll contributions (adjusted for any gains or losses). You must submit your withdrawal request during an election period set by your Plan of no less than 30 and no more than 90 days following your first paycheck upon which payroll contributions were deducted. To determine your Plan's election period or to request a permissible withdrawal, please contact Vanguard.

This permissible withdrawal is not subject to any early withdrawal penalty. The amount will be included in your gross income in the year in which the withdrawal occurs. You will forfeit any matching contributions associated with the withdrawn payroll contributions.

¹This is the investment in which your contributions will be invested if you do not actively make a different investment allocation decision. If your default investment is a date-specific target date investment, your contributions will be invested in the most appropriate investment for someone your age, based on the investments offered by your Plan as of the date you are enrolled in the Plan. Should your Plan subsequently offer a different date-specific target date investment that also may be appropriate for someone your age, your contributions will continue to be invested in the initial target date investment. You can choose different investments for your contributions at any time.
