

## BERING-WESTON JOINT VENTURE

The Bering-Weston JV is an SBA-certified 8(a) Small Disadvantaged Business (SDB) designed and built to deliver quality, high-end self-perform construction services. This JV combines the strengths of the Mentor-Protégé team of Bering Straits Global Innovations, LLC (BSGI) and Weston Solutions, Inc. (Weston). Our newly-formed joint venture partnership builds upon multiple projects performed together under prime and subcontractor relationships (including secure work), as well as long-term, legacy working relationships between a number of BSGI and Weston personnel. Both JV partners have extensive experience providing construction services to Federal clients, ensuring low risk and high confidence of successful performance.

BSGI is an Alaska Native-Owned, SBA Certified 8(a) firm and a wholly owned subsidiary of Bering Straits Native Corporation (BSNC), an Alaska Native Corporation (ANC). BSGI is backed by BSNC, which has decades experience nationwide working with the Federal government, DCAA-approved accounting systems, over \$600M in revenue in 2022, and a bonding capacity of \$250M single and \$500M aggregate. BSGI's Mentor, Weston, is a large, 100% employee-owned national environmental and infrastructure services firm with a 65+ year history serving government, industrial, and commercial clients with gross sales of over \$1.3B to date in 2023.

### Why Choose the Bering-Weston JV

- SBA certified 8(a) SDB through September 2029
- Self-perform design and construction work with cleared personnel
- JV partners combined have performed over \$3.9B in design and construction work over the last 10 years including approximately \$750M in security design, construction, and renovation for our clients
- Decades of experience working with various Federal defense and civilian agency programs
- Nationwide footprint and global experience

### Scope of Services

- Vertical and Horizontal Design-Build/Design-Bid-Build Construction and Renovation
- Secure Construction
- Disaster Response Infrastructure Repair
- Fueling System Cleaning, Inspection, Repair, Maintenance, and Design
- Utility, Mechanical, and Electrical Infrastructure
- Electric Vehicle Charging Station Design/Installation

## SBA 8(a) Advantages

### No \$\$ Ceiling Limit – 13 CFR 124.506(b)/FAR 19.805-1(b)

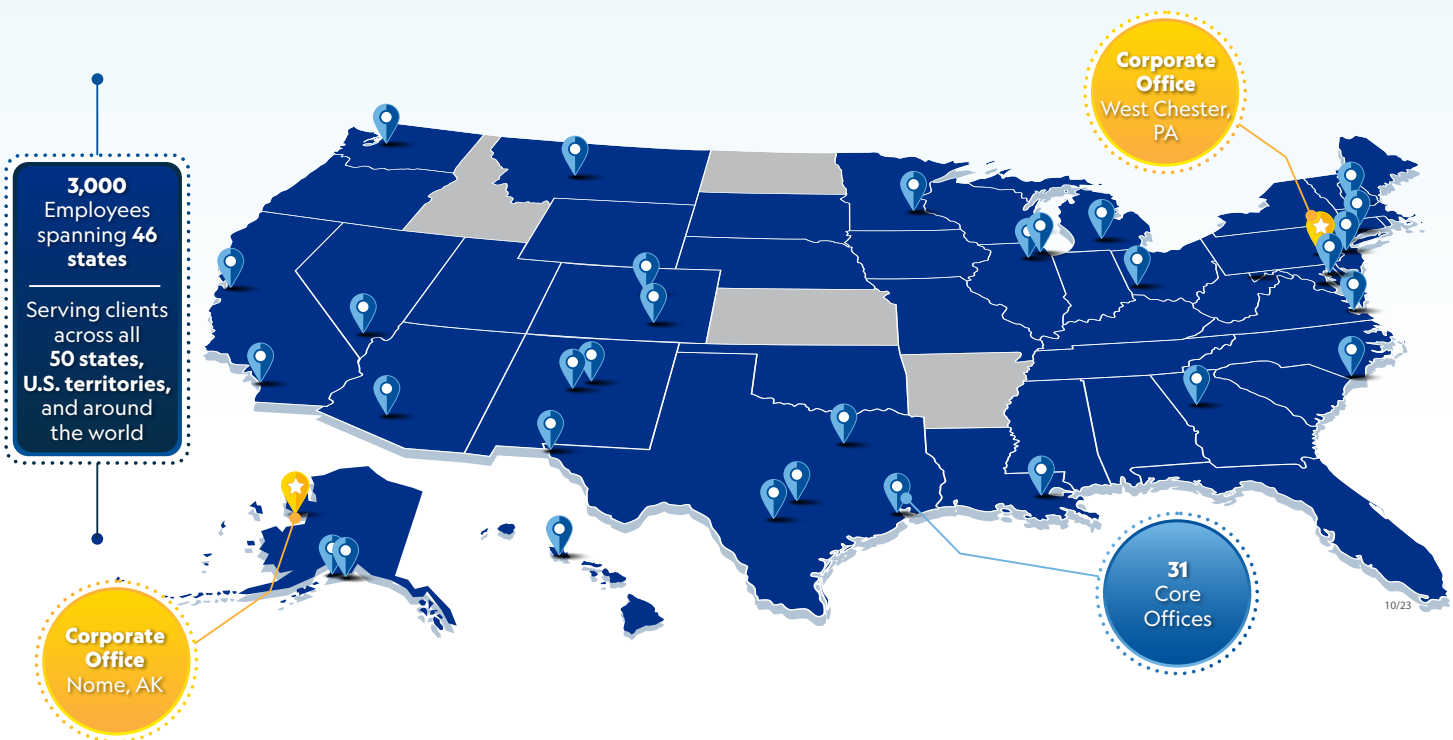

ANC-owned companies can be awarded sole-source contracts up to \$100M without Contracting Officer approval. Contracts with unlimited dollar value can be awarded with a Contracting Officer approval. These contracts do not require competition.

### Non-Protestable – 13 CFR 124.517(a)

Contracts awarded directly to an 8(a) ANC cannot be protested. The ability to fast track an important contract avoids a long, expensive, and complex procurement cycle.

## Nationwide Coverage

This JV combines the resources of both Weston, a full-service engineering and construction firm, and the BSNC-BSGI team. BSGI is backed by the breadth of parent company BSNC, with decades of experience and full access to over 2,000 BSNC and BSNC subsidiary employees.
